

The 7th iCeMS Café

Saturday, February 13, 2010 14:00~15:30
iCeMS Complex1, Main Building 2nd Floor Lounge
Right at the "Kyodai Seimon-mae" city bus stop

Turning "DNA" into "Origami"

Speakers: Professor Hiroshi SUGIYAMA
Professor of the Graduate School of Science, Kyoto University
Principal Investigator and Professor of the iCeMS, Kyoto University
and Researchers of his laboratory

There are artists who paint on grains of rice.
We can do things that are far, far smaller.

Strands of DNA can be woven into miniscule pieces of "origami".

This "origami" is really quite incredible.

What is so incredible about it?
Has your curiosity been sparked?
If so, please join us at the next iCeMS Café!

fee: 500 yen for a soft drink and confectionery
capacity: 30 people

(Applicants will be chosen at random and notified of the results
only if the number of applicants exceeds capacity.)

Registration: required

For registration and inquiries, please contact the
iCeMS Science Communication Group including the following information:

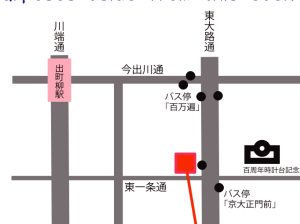

- 1) name
- 2) age
- 3) contact email address or fax number
- 4) occupation
- 5) how you heard of this event.

Registration needs to be made by Sat. Feb.6.

Personal information will not be used for purposes aside from this event.
