
The 57th iCeMS SEMINAR

**Thu 09 September 2010
16:00-17:00**

Multimodality Imaging of Angiogenesis

Lecturer: **Dr. Xiaoyuan (Shawn) Chen**

Senior Investigator

Chief, Laboratory of Molecular Imaging and Nanomedicine (LOMIN)

National Institute of Biomedical Imaging and Bioengineering (NIBIB)

U. S. A.

Venue: 2nd floor Seminar Room (#A207)
Main Building, iCeMS Complex 1
Kyoto University

Angiogenesis, the formation of new blood vessels from the preexisting blood vessels, a key event in tumor progression and many other pathological disfunctions. This talk will summarize some of the recent advances in vasculature imaging at anatomical, functional and molecular level. The use of molecular imaging techniques to monitor anti-angiogenic treatment will also be presented.
