

# The iCeMS Katsura Laboratory opened in the Funai-Center building in the Katsura campus of Kyoto University on April 1

iCeMS (a new research institute of Kyoto University founded on October 1 last year) opened a new laboratory on April 1, 2008 in the Funai-Center building in the Katsura campus of Kyoto University. Groups lead by iCeMS Professors, Susumu Kitagawa (also Deputy Director of iCeMS) and Hiroshi Imahori will conduct research of meso-control of stem cells and other cells based on material sciences. Opening reception for the involved persons will be held on April 28 (17:00-18:00).
