

The Second iCeMS SEMINAR

演 題 1 : **Brighter and smaller: the indefinite quest for better single molecule probes**

講演者 1 : **Daniel Choquet**

Professor
CNRS UMR 5091
Université de Bordeaux

演 題 2 : **Integration of mechanical and chemical signals in epithelial cell migration**

講演者 2 : **Gaudenz Danuser, Ph.D.**

Professor
Laboratory for Computational Cell Biology
Department of Cell Biology
The Scripps Research Institute

日 時 : 2007. 12. 19. (水) 10:00-12:15

場 所 : 再生医科学研究所東館5階 ルーフテラス

In this seminar, we will have two distinguished guest speakers, who are making impressive discoveries in neuronal and cell sciences, by advancing imaging technologies. Please come to their seminars, and meet them. Refreshments will be served.

主 催: 京都大学 物質-細胞統合システム拠点 (iCeMS = The Institute for Integrated Cell-Material Sciences)

京都大学 再生医科学研究所 楠見研究室 / 科学技術振興機構 ICORP 膜機構プロジェクト
