Program

May 27 (Wed) 13:00 ~

Session 1
Integrated Approaches to Tissue
Development and Function
Session 2
Physical Biology of Membrane
Nano- and Meso-domains

May 28 (Thu) 8:30 ~

Session 3
Integrated Chemical-Biological
Approaches to Lipid Functions in the Cell
Session 4
Stem-cells and their Applications
Session 5
ABC Proteins and Cell Functions

Session 6

Signaling Lipid Molecules and
Transporters

May 29 (Fri) 8:30 ~

Session 7
Meso-Control of Functional Materials
Session 8
Multi-Functional Materials
Responsive to External Stimuli
