

# The 47th iCeMS SEMINAR

2010 3. 4 (木)  
16:00-18:00

演題：**Quantitative Control of  
Cell Behaviors on Soft Surfaces  
with Tailored Mesoscopic Structures**

講演者1：**Dr. Hiroshi Yoshikawa**

Institute of Physical Chemistry  
ドイツ ハイデルベルグ大学

講演者2：**Ms. Juliane Oswald**

Institute of Physical Chemistry  
ドイツ ハイデルベルグ大学

場所：京都大学 アイセムス本館 2階（東一条北西角）  
セミナー室（A207）

The quantitative control and evaluation of cell behavior on soft surfaces with well-defined physical/biochemical properties attracts much attention in view of a fundamental interest in cell-cell and cell-extracellular matrix interactions. In this talk, we introduce the overview of our research on (1) the development of a new technological platform to quantitatively evaluate adhesion strength of cells on soft surfaces, and (2) the regulation of cell behavior on hydrogels with tunable mechanical properties and biofunctionalized membranes.

主催：京都大学 物質-細胞統合システム拠点（iCeMS =アイセムス）
